

acyp recovery youth support service.

who we are

The ACYP Recovery Youth Support Service is made up of experienced, trauma informed, and passionate specialists.

what we do

If you're under 24 years, the team can speak with you to better understand what forms of support would be most valuable to you so that you can achieve your goals.

The team will also partner with local providers to make sure you receive tailored support for your mental health and wellbeing by linking you up with available services.

when we do it

We're on the ground now and would love to hear from you! Connect with the team if you would like support to reach your goals or need some help connecting with support services.

where we do it

We are an outreach service that travels across Northern NSW.

why we do it

We know that it can be confusing to navigate services especially when facing stress and challenges. The floods have only made things harder for young people. We provide individualised support so that you can feel confident advocating for yourself and your needs.

We can also elevate your voice to key decision makers in government and non-government organisations to inform decisions and service delivery that impacts children and young people.
